

LINGESH N

Artificial Intelligence & Machine Learning Engineer

+91 7708159531 | blingeshwaran2006@gmail.com | Chennai, Tamil Nadu | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning undergraduate with practical experience in Java, Spring Boot, React.js, REST APIs, Docker, Git, Linux, TensorFlow and OpenAI API integration. Experienced in developing AI-powered applications, backend systems and computer vision solutions through hackathons and academic projects. Strong foundation in software engineering, backend development, API integration, problem solving and scalable application development. Passionate about building reliable software solutions and continuously learning emerging technologies.

EDUCATION

- B.E. Artificial Intelligence & Machine Learning, DMI College of Engineering, Chennai
- Expected Graduation: January 2028
- GPA: 7.5/10

PROFESSIONAL EXPERIENCE

Backend Developer (Project-Based) | AI Hackathon Projects | 2024–Present

- Designed scalable backend services using Java Spring Boot with modular architecture.
- Integrated OpenAI APIs into AI-driven applications for intelligent automation.
- Developed REST APIs with structured exception handling and clean code practices.
- Containerized applications using Docker and Linux environments.
- Collaborated through Git/GitHub following Agile development workflows.
- Delivered functional AI prototypes within strict hackathon deadlines.

PROJECTS

- **Multimodal AI Chatbot:** Integrated text, voice and image processing using Spring Boot, React.js, TensorFlow and OpenAI APIs. Designed modular REST architecture with focus on performance, scalability and usability.
- **JARVIS Android Chatbot:** Developed an Android chatbot using Java and NLP with a responsive custom interface to improve conversational user experience.
- **BUFF Image Recognition:** Developed a CNN-based object recognition system using TensorFlow, OpenCV and scikit-learn while optimizing preprocessing and prediction accuracy.

TECHNICAL SKILLS

- Languages: Java, Python, JavaScript
- Frameworks: Spring Boot, React.js, REST APIs
- AI/ML: TensorFlow, OpenCV, scikit-learn, NLP, OpenAI API
- Database: MySQL
- Tools: Git, GitHub, Docker, Linux
- Concepts: OOP, Data Structures, Backend Development, API Integration

CERTIFICATIONS

- Anthropic – Introduction to Claude for Work (2026)
- Edunet Foundation – Green AI (2026)
- IIT Kanpur – Learning Physics Through Simple Experiments (2020)

CORE COMPETENCIES

Backend Development • REST API Development • AI Integration • Machine Learning • Software Engineering • Problem Solving • System Design • Leadership • Team Collaboration
